THE BEST TRIPLE COOLING
FRIDGE IN MALAYSIA

HAIER'S UNIQUE TECHNOLOGY

Triple Cooling System

3 Independent Cooling Zones for separate compartments ensure no odour mixing.

DC Inverter Technology

Reduces the electricity consumption for a more economical & eco-friendly fridge.

T-ABT with 99% Sterilisation Effect

99% sterilisation effect in only 30 minutes with self cooling fan and UV-LED.

Humidity Control System (HCS)

HCS maintains the humidity of Dry Zone & Wet Zone so that food can be stored 2X longer, with 3X the preservation effects.

Convertible Fridge

Freezer or fridge or both, enjoy the versatility of temperature ranging from -18°C to 5°C.

HAIER'S UNIQUE TECHNOLOGY

DD Inverter Technology by FISHER & PAYKEL

Using top level Fisher & Paykel silicon steel sheet without belt for low energy use and silent operation.

Dual Drum

A variety of washing modes for you to choose from depending on your needs. It is easy to operate with 4kg dryer capacity and lower drum.

Smart Dual Spray

The dual spray thinks one step ahead, it removes all fibers usually blocked in the gasket. This results in excellent fluff-free washing loads.

Airwash

Superior care for your precious clothes. Cleans & restores fabrics without direct water contact, giving spa treatment to your clothes.

Laser-Welding Technology

Laser-welding technology makes the welding lines on the drum 3 times stronger than normal welding, guaranteeing high-speed spin during washes.

Using top level Fisher & Paykel silicon steel sheet without belt for low energy use and silent operation.

Smart Dual Spray

The dual spray thinks one step ahead, it removes all fibers usually blocked in the gasket. This results in excellent fluff-free washing loads.

Smart Dosing

Save time and detergent with the Smart Dosing feature that helps to accurately dispense the detergent needed for every load.

Laser-Welding Technology

Laser-welding technology makes the welding lines on the drum 3 times stronger than normal welding, guaranteeing high-speed spin during washes.

Anti-Bacterial Technology

Eliminates more than 99.8% bacteria and prevents bacterial growth, keeping washing environments cleaner and more hygienic.

Smart Clean

The best setting freezes 30% more moisture, easily stripping off dirt with a strong cold expansion force.

Up to 63% Energy Saving

The cooling performance is much faster and more powerful with energy saving of up to 63%.

Hydrophilic Aluminium Foil

Water flow speed increases by 20% allowing dirt to be washed away thoroughly during defrosting.

PID Inverter Control

Monitor room temperature to precisely maintain set temperature with a margin of $\pm 0.1^{\circ}$.

Nano Silver Ion Coating

The coating contains silver ion to effectively kill 99.9% bacteria and inhibit bacterial growth.

3D Air Flow

Fan blade will move left to right or up and down according to your wish.
