NEW GENERATION OF WATER HEATING TECHNOLOGY

For Cleaner and Healthier Showers

- Circular Clean Heating
- DC Inverter Ultra Silent Pump
- Constant Temperature Control
- Cut Off within 0.1s
- Shock Proof

Circular Clean Heating
Heating element is not submerged in a mini water tank, and water is heated through the aluminum alloy heat transfer.

DC Inverter Ultra Silent Pump
DC Inverter Silent Pump gives you a powerful water flow, and is also quiet. Compared with AC Pump, it saves more energy.

Constant Temperature Control
The dual temperature sensor device constantly controls water temperature fluctuation. Constant water temperature ensures comfortable experiences.
